

RELIABLE

INNOVATIVE

LEADING

Driven to create the best solutions.

Knorr-Bremse Quality Policy

Individual responsibility and ownership are essential to continually remain Reliable, Innovative and Leading.

Reliable – we are the trusted partner.

We assure compliant processes, products, systems and services that minimize both safety and security risks. Each of us ...

- is committed to providing systems and products that are flawless, reliable, and safe over the whole product life cycle.
- follows the processes of our business management system to fulfill internal and external requirements.
- is driven by failure prevention and is constantly innovating to minimize safety and security risks (e.g., cybersecurity, functional safety, etc.).

Innovative – we develop future technologies.

We strive for continuous improvement and digitalization through the application of new technologies, in partnership with customers and suppliers. Each of us ...

- is aware that our work is customer-driven and serves to provide advanced and capable solutions for their needs.
- collaborates in partnership with our customers and suppliers.
- is committed to drive continuous improvement, digitalization and innovation.

Leading – we set standards.

We aim to be the industry benchmark for product & service quality and safety supporting sustainable, energy efficient mobility. Each of us ...

- is committed to actively driving the transition to sustainable mobility.
- shares the motivation to maintain our leading position and make Knorr-Bremse the industry benchmark.
- strives for Business Excellence in all aspects of our operations.

Every one of us makes the difference.
